PSYCHIC LINE 1902 213 361

CAPRICORN: You have had your eye on a new role or a new job for some time. If you work really hard this month you might just impress the powers that be and soon be enjoying a complete change in routine. Don't be tempted to slacken the pace – be bold.

AQUARIUS: You may not think you are lucky but now a superb sun (Jupiter) link will bring good fortune. It is not magic or a lottery win, you must identify the opportunity and seize it. Startle your critics with your ingenuity or you will be furious if you missed by moment.

PISCES: Don't spoil a good thing by going too far. Your domestic or financial happiness has been hard won – and there is more to come, but this week you have a little gremlin on your shoulder urging you to tear it all down and start again. Resist, you will be glad you did.

ARIES: You cannot do it all alone, much as you would like to, a partner or associate wants to be involved and you would be wise to accept. Try not to throw a tantrum, everyone knows you are independent and capable but a silly argument could lead to a loss of what you deserve to have.

TAURUS: A brilliant idea is nothing short of genius. Just hope you get some credit. You are full of optimism and generosity but someone else is just as keen to get the glory. Confrontation is not the answer – good humour is. Be sure you know where to draw the line.

GEMINI: One of the best month's in the year. Your Gemini sun links to magnificent Jupiter, suggesting that love and favour are coming your way. Chances are it is not what you think, the cosmos have surprises in store. By the end of the month you will not be able to wipe the smile from your face.

CANCER: They say if it ain't broke don't fit it, but that is not wise advise this month. Something has to go. Aim high, mend fences, ask again, somewhere out there someone is waiting to say "yes" to one of your heart's desires. A family matter or something from your past could hold the key.

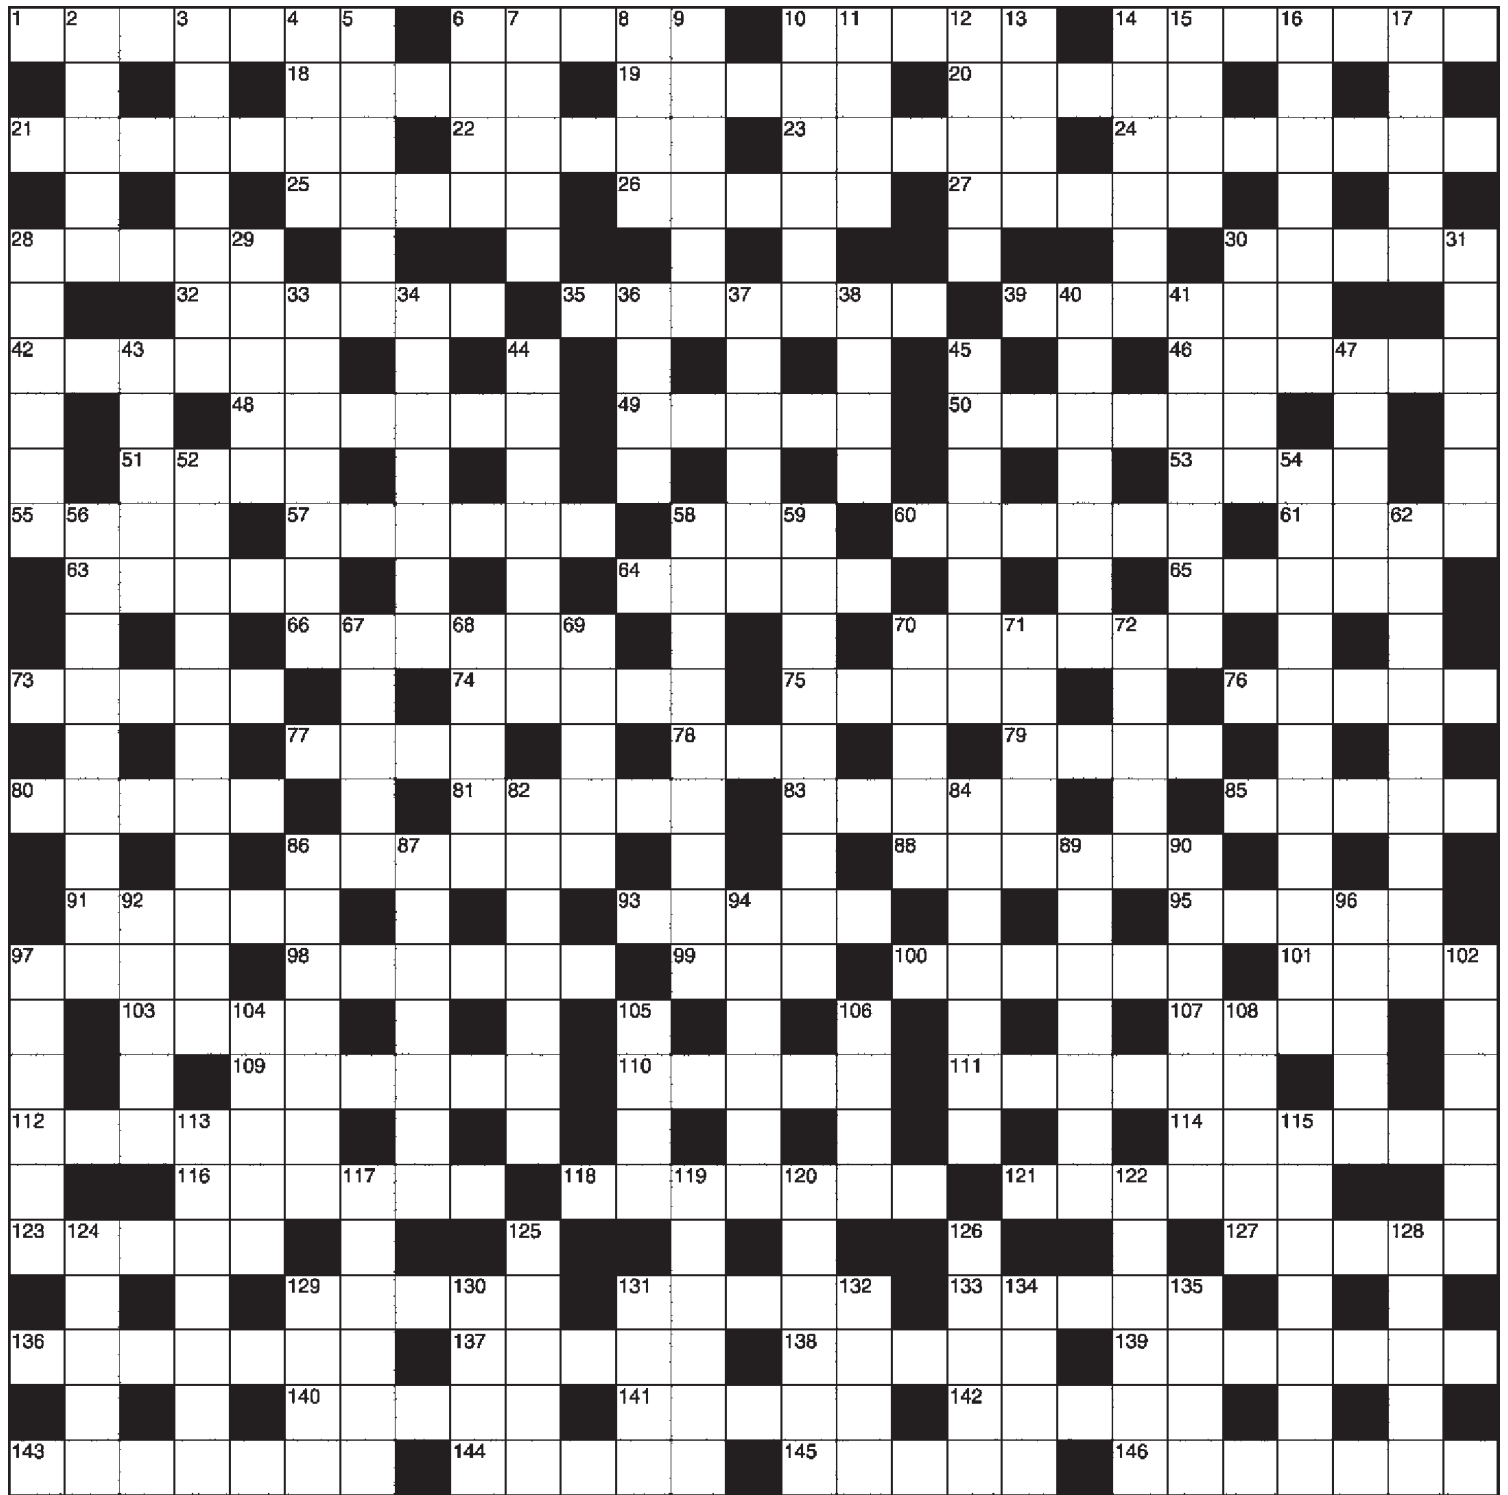

LEO: Thank heavens for friends. This month colleagues, partners and family are exhibiting bizarre behaviour. The more time you spend with your mates the happier everyone will be. You have got big plans, some will be realised but others will be frustrated or disrupted.

VIRGO: Concentrate on career, finances and your earning power. There is no better time for enhancing all three. Aside from that a weird turn of events is a disappointment. Get over it fast, though tensions run high the stars are still very much on your side.

LIBRA: Someone may be a disappearing act so keep a paternal eye on those for whom you are responsible. Otherwise this should be a good week. One individual idolizes you and seeks to impress. Take adulation with good grace, it might even lead to a change of opinion or of residence.

SCORPIO: From today what you receive with one hand circumstances contrive to grab from the other. You are curiously dependent on someone's sense of honour or, more probably, their guilt. The outcome is the same, what looked lost and gone for ever is actually safe and sound.

SAGITTARIUS: It is possible to have too much of a good thing. You are the recipient of amazing offers but someone else may pip you at the post. Although it does not seem so at the time this is for your own higher good, which is why having a great tantrum about it is just silly.
