

# Rejuvenate your Body

MELBOURNE Collagen Foundation was established in 1990 with the intent of focusing on cosmetic procedures and skin concerns.

This is achieved by Dr. Peter Bartnicki (Cosmetic Physican) and his consultants, keeping up to date with the latest procedures, products and anti-aging treatments.

Dr. Bartnicki has been in the Cosmetic field for over 15 years and is dedicated to bringing new techniques and procedures to his patients.

## The Menu

The menu of treatments includes peels – fruit acid and chemical; microdermabrasion to keep the skin in tip top condition; collagen therapy and mesotherapy, a simple non-surgical, natural medicine treatment that stops fat deposits, triggers fat release and increases circulation.

Consultants at MCF include Karen Keogh, a highly experienced registered nurse who does all the injectibles, and Angela Davis who does the IPL (intense Pulse Light) treatment.

## Anti-Aging Treatment

Dr. Peter Bartnicki specializes in anti-aging hormonal treatment for both men and women. As Peter explains, the common view is that

we age when our hormones go down. In fact when our hormones go down we age.

Our hormones regulate our organs, as the hormone balance changes so our organs are affected. Lifestyle factors such as diet, exercise and sleep will affect our hormones and consequently our organs.

## Bio-Identical Hormones

It is not sufficient for hormone treatment to be natural it has to be bio-identical. With an extensive questionnaire and various tests Dr. Bartnicki can determine the exact treatment for you that can rejuvenate you from the inside making you more youthful and energetic.

The Melbourne Collagen Foundation gears packages for individuals. Check out their website or call today for further information.
