

SAS Blinds come to you

SIMON AND Anyeta of Individual Blinds have over 20 years combined experience in making up SAS BLINDS. Simon and Anyeta are situated in Point Cook and have mainly serviced the western areas.

Now, with their knowledge and experience, they are taking their services to the inner city and bayside suburbs. Individual Blinds come to you with all the latest product samples and knowledge of the products.

Their satisfied customers range from the large corporate buildings to the small humble home next door, and of course all in between.

What A Choice!

The products they stock are absolute stunning. They include Roman blinds with exclusive fabrics; Western Red Cedar Venetians in light, medium or dark finishes - the timber is 4.2 mm in thickness, and they have oil, painted and 60mm blades.

Individual Blinds also stock View Screen blinds, which are great for the sun glare and daytime privacy. They come in a range of classic and modern colours.

How about Holland blinds with a variety of finishes from scallop to the modern rod roller? Perhaps you would like slim line and micro Venetians or vertical blinds? Individual Blinds can bring ideas to you that you might not have thought would suit.

They can bring photos for you to see and of course the actual product for you to see, touch and use.

A Relaxing Experience

To make an appointment, for you to view the range, call the office. Office hours are from 9.30am to 5pm. Or call Anyeta direct, on 0409 564 799.

You can also fax measurements for an approximate quotation. Individual Blinds will help make furnishing your windows a relaxing experience rather than a chore.
